April 27
10 am-Noon**

**Arrington Lakefront
Lagoon Shelter
1631 Sheridan Rd.**

FREE

Join an adult learning community to study water, a defining feature of our geography and of our social, economic, political, cultural, and spiritual lives.

Evanston's location on the southwest shore of Lake Michigan, one of the five Great Lakes in the Great Lakes Watershed, means that we are some of the major beneficiaries and caretakers of the largest system of freshwater on the surface of earth.

Each workshop includes a short talk, discussion, hands-on activity and tea. No registration is necessary – just drop by.

TOPICS:

- 3/2 - A discussion of *The Chicago River: a Natural and Unnatural History, Revised edition* with author Libby Hill
- 4/27 - A discussion of the North Branch Dam with Dick Lanyon and John Quail
